

ABSTRACT

5           In a gravity-feed towel dispenser for dispensing C-fold and interfolded towels  
having a transverse length,  $L$ , through an elongated bottom dispensing aperture  
having a length of  $L$  or greater, an adapter plate for securing to the bottom portion of  
the towel dispenser is configured to abridge the length of the dispensing aperture to a  
length,  $L'$  of from about 80 percent to about 90 percent of the transverse length  $L$  of  
10 the interfolded towels. In a preferred embodiment the adapter plate is provided with a  
pair of upwardly inclined terminal portions projecting laterally and upwardly at each  
end of the adapter plate.
